AUTHENTICITY IS THE SPICE OF LIFE

When you view the world from the peak of a fell, things suddenly become a lot clearer. Mankind has an inherent desire to connect with the purity of nature. At Lapland Safaris, our job is to uphold this bond by letting people both experience and honour the local life of the North. Lapland invites you to become revitalised, joyful, and active. To wonder, relax, and overcome limits – either together or by yourself. With family, friends, or colleagues.

As a genuine Lappish family business, it is no coincidence that we have grown to become the largest provider of adventure activities in the Nordics. We put our hearts into everything we do, along with a strong emphasis on interpersonal encounters. Our passion is to provide diverse - even independent - ways to experience the true spirit of Lapland. The many services of Lapland Safaris are designed to cater to the needs of both first-timers and experienced travellers of the North. With us, you are guaranteed to feel the one and only nature of Lapland in exactly the pace and style you want to.

People do not need to add more hours in their day. What they do need is to remind their senses of the vital importance of living in the moment. Of breathing in the now.

You are warmly welcome to Lapland.

EXPLORE THE OUTDOORS

LAPPISH NATURE PRESENTS IDEAL OPPORTUNITIES FOR RECREATIONAL ACTIVITIES, WITH COUNTLESS NATIONAL PARKS TO DISCOVER. LET US TAKE YOU TO THE GREAT OUTDOORS OF THE NORTH!
Are you ready to meet original prospectors and learn about today’s gold digging and panning methods? Finnish Lapland is full of myths, legends, and dreams. Many of these are centered on Lapland’s gold fields and people who, even today, are hunting for the world’s purest gold – found in and around the Lemmenjoki and Ivalojoki rivers. After learning how to find gold, we get the chance to try the hard work by ourselves. Shovels and pails await at the ditch and off we go! After a bit of hard work, a prospector will help us detect gold nuggets and gemstones by panning. Of course, workers get to keep all the discovered treasures! Before heading back, there is time to take a break for coffee and pancakes.

Our river experience starts at Tolosjoki with small, easy-to-paddle rapids increasing the fun factor. Here and there, the water gets shallow and we might need to wet our feet for a moment. Fortunately, the packrafts are easy to paddle and very light to carry. On the shore along the first part of the river, genuine gold digging takes place during the summer. We will take a short break for food, snacks, and some pictures. After approximately 10 km of paddling, it’s time to explore the forest around us. It’s time to pack our things and start hiking back towards Saariselkä. During this easy 5 km hike, we learn more about the local flora and might also find traces of Lappish fauna, as well. Quad bikes provide you an entirely different way of manoeuvring through the surrounding nature. These tractor-like quads are easy to control and equipped with a steering wheel, proper seat, seat belt, roll cage and power steering – making them behave much like cars. The route will go over hills and along forest trails, keeping you thrilled but safe along the way. When we reach an ideal spot with a view, it is the perfect time to take a break and reward yourself with a refreshing drink.
